

General Farm Hand
Heritage Prairie Farm

Overall Responsibility:

The Livestock and Honey Production Leader is focused on taking care of all livestock, including honey bees, and harvesting and processing all livestock products as well as bottling honey. As needed and as directed by the Operations Manager this position will support the Farm Crew by performing tractor duties including but not limited to tilling, cultivating, mowing, plowing, etc.

Key Areas of Responsibility:

- Feed and water animals daily or as needed
- Bottle and package all honey as needed
- Harvest eggs 5 times per week and wash and pack them
- Keep all animal quarters and processing facilities in extremely clean condition
- Clean out animal stalls and chicken coops weekly
- Assist the Operations Manager with inspections of all honey bee hives every two weeks
- Perform bi-annual honey harvests
- Prepare all livestock for the changes of seasons
- Mowing, weeding, and general lawn maintenance of Red Farm

Terms of Employment:

Full Time– At will employment

Qualifications:

- Desire and ability to work out doors in all weather conditions. We will be working in rain, snow, wind, and heat.
- Ability to do manual labor for extended periods of time.
- Ability to safely lift up to 60+lbs
- Positive attitude that includes commitment to Heritage Prairie Farm Core Values.
